When you can't be home, let us offer you ours...

Located in a beautiful country setting, our professional and caring staff will be your extended family. If you are looking for short-term rehabilitation or an extended stay in our special care dementia or skilled nursing units, we customize care to meet your needs.

Numerous opportunities are available for you to choose how to spend your day: outdoor patio, library, walking trail, computer access, satellite TV, dances, and community events. The beauty salon is conveniently located for easy access.

A chapel is available for quiet solitude and reflection as well as religious services.
