PLAN REVIEW APPLICATION

POWTS

NOTE: Personal information you provide may be used for secondary purposes [Privacy Laws. 15.04(1)(m), Stats].

Clark County has been delegated authority by the Department of Safety & Professional Services to review those types of POWTS plans identified below. Those POWTS plans must be designed using approved component manuals. NOTE: If the POWTS plan does not meet the criteria listed below, the plan must be sent to Department of Safety & Professional Services – Division of Industry Services Division POWTS plan reviewer.

- Plan review for pre-cast, or manufactured holding tanks for one and two family dwellings.
Plan review for pre-cast, or manufactured holding tanks for public or commercial facilities with a design wastewater flow of 4,500 gpd or less.
Plan review for non-pressurized in-ground systems for public or commercial facilities with a design wastewater flow of 3,000 gpd or less.
Plan review for pressurized in-ground systems that receive a design wastewater flow of 3,000 gpd or less.
Plan review for mound systems that receive a design wastewater flow of 3,000 gpd or less.
Plan review for at-grade systems that receive a design wastewater flow of 3,000 gpd or less.
Plan review for single pass sand filters that receive a design wastewater flow of 2,250 gpd or less.
Plan review for recirculating sand filters that receive a design wastewater flow of 2,250 gpd or less.
Plan review for split bed recirculating sand filters that receive a design wastewater flow of 2,250 gpd or less.
Plan review for drip line dispersal systems that receive a design wastewater flow of 3,000 gpd or less.
\*Includes plans using site-constructed tanks with State Product approval.

NOTE: Plans are reviewed on a first-come, first-serve basis. Contact the Clark County Planning and Zoning Department for emergency situations.

1. POWTS Plan Submittal

Design Flow: \_\_\_\_\_ gpd

System Type

- ( ) POWTS System
( ) Holding Tank
