

## **Extended Stay Camping Policy**

The Clark County Forestry and Parks Department would like to thank you for considering spending some of the upcoming camping season with us. We are pleased to offer Extended Stay Camping opportunities at our campgrounds.

We strive to provide pleasant and memorable camping opportunities for as many people as possible while maintaining an orderly and inviting campground and protecting county resources for future generations. To this end, the Clark County Forestry and Parks Committee has established the following policy related to Extended Stay Camping. This policy is subject to review and change. Clark County Forestry and Parks also reserves the right to periodically update and modify this policy as it deems necessary.

Our campgrounds can often be a very busy public place, subject to all the activities that occur in a campground. Extended Stay Campers shall recognize that all park users are allowed access to all common space and that other campers may recreate in the vicinity of your campsite. All campers are expected to be tolerant of such activity. Modification to any sites, including planting of trees or other vegetation, erecting sheds, installing posts and other improvements will only be allowed with permission from the Clark County Forestry and Parks Department.

For additional questions regarding this policy, please write or call us at:
